Field Trip to Jharkhand

The field visit covered three clusters of Jharkhand - Ranchi, Giridih & Deogarh, and few centres of West Bengal - Purulia. Centres like Jhalakdiha were quite inspirational, with educational charts in the room that the students were able to explain; learning at a center where there aren't even any proper roads. The Sarwa centre in Deogarh, a girls' residential school, was equally amazing as the students eagerly explained about their daily routine and the chores in English. Although it was vacation time for the students in West Bengal, the Field Team managed to bring the students to the school to interact with the coordinators, and spend quality time discussing their experiences learning with the Volunteer Teachers.

New Centers in AP, Telangana and Karnataka

Babu Nagar School in Madanapalle organised the inauguration of 4 new schools. Local MLA, DEO, MEO and other eminent local leaders took part in the festivities, along with the local NGO partner, GORD. A new center was also inaugurated in rural Karnataka, in Jalihal, Raichur district. All the centers are generously sponsored by LTI.

Inauguration in Tamil Nadu

Four new schools were inaugurated in Tiruvannamalai in Tamil Nadu, and each school carried out a ceremony at their respective locations to mark the auspicious occasion.

Wikividya

Content Collation

199 active volunteers have contributed to the eVidyaloka repository of teaching resources till date. The Content Volunteers have collated 4500 contents until October, 2017.

eVidyaloka

Joy of Connecting

Joy of Connecting is a face-to-face interaction between children of rural India and people of Urban India.

An eVidyaloka initiative that helps bridge the Rural-Urban divide and allows individuals to participate in the nation-building exercise.

Joy of Connecting

A new initiative has recently been kick started that aims at connecting the children in rural India with the attendees via live & interactive session. This would also help spread awareness about the eVidyaloka model and its Digital Classrooms. 5 sessions have been carried out across the country, from corporate to educational institutes, the turnout of the attendees has been engaging and forthcoming.
